### OVERVIEW:

An uncompromising view of the world today, a mutual love of heavy music, and an insatiable desire to set the record straight concerning their faith; these ingredients make up Long Island, NY's **Alove For Enemies**. With their ever-evolving sound, made up of metal influenced hardcore, **Alove For Enemies** continues their onslaught with their latest project, "Resistance"; The highly anticipated follow up to "The Harvest". "Resistance" is the product of a musical evolution that **Alove For Enemies** continues to nurture. Dark and bold, "Resistance" travels down the roads of the spiritually tormented and the since forgotten sense of camaraderie that the hardcore movement was based on. As honest in their lyrics as they are in their music, **Alove For Enemies** begins its next chapter with an explosive new record engineered and produced by Dean Baltulonis (**Most Precious Blood, Sick Of It All, The Explosion**). Heavily influenced by the likes of bands such as **Few Left Standing, Darkest Hour** and **Shai Hulud**.
