

THE WHORE'S TROPHY

SYMPHONY (IN PERIL)

DESCRIPTION:

"Themed and titled after a passage in the book of Revelation, "The Whore's Trophy" is an apocalyptic metalcore assault! After the success of last year's "Lost Memoirs And Faded Pictures", Symphony In Peril made the journey out to Trax East studios and worked alongside engineer Eric Rachel (God Forbid, Zao, Hatebreed, A Perfect Murder, etc...) to create a heavier and more focused display of musicianship. The battle of Armageddon is near and "The Whore's Trophy" very well could be the soundtrack for it!

SELLING POINTS:

- Highly anticipated follow up to 2003's "Lost Memoirs And Faded Pictures" which shipped over 13,000 copies!
- Engineered and produced by Eric Rachel at Trax East Studios (Hatebreed, God Forbid, Zao, Snapcase...)
 - Full color ads running in Jan / Feb issues of Revolver, Alternative Press, Outburn, AMP and more.
 - Artwork and design done by the highly acclaimed Asterik Design Studio.
